

EQUITIES TRADING NOTICE

TMX Select Decommission

As a follow-up to the TMX position paper “[Reshaping Canada’s Equities Trading Landscape](#)”, this notice is to confirm that TMX Select will be decommissioned at the close of business on Friday, September 18th, 2015.

With this change, we intend to reduce complexity, fragmentation and dealer costs without compromising on choice. The mandate to provide a premium destination for active order flow, previously maintained by Alpha IntraSpread and TMX Select, will now be fulfilled by the new Alpha model.

Access to TMX Select order entry and data feeds will be removed over the weekend leading up to Monday, September 21st. To prepare for this change, customers are advised to review their routing and network configurations and plan accordingly.

Termination notices for all TMX Select Subscribers will be sent out over the coming weeks.

For additional information regarding this announcement, please contact the Account Management Team.
