

TMX Operational Notice

TMX Internal Disaster Recovery Test

As a reminder, TMX will be conducting an Internal Disaster Recovery Test on **Saturday April 28, 2018**.

All post-test validation will be completed by TMX and **no validation activity is required by TMX Clients**.

Clients will experience a loss of network connectivity for circuits to 3500 Steeles data centre during the test. Network connectivity is anticipated to be restored at approximately 11 PM ET on Saturday April 28. A notice will be sent to the street when the test is over and normal operations have resumed.

For more information contact [TMX Market Operations](#) at (416) 947-4705.
