

TMX Operational Notice

Reminder: TSX Market Maker Self-Trade Enhancements

TMX Market Operations would like to remind all clients that the enhancements detailed in Equities Trading [Notice 2019-037](#) will be implemented in Production effective **Monday November 4th, 2019**. These enhancements will allow TSX Market Makers to utilize the self-trade key to prevent or suppress trades against incoming orders with the same self-trade key. TSX Market Makers who have not already done so are encouraged to reach out to TSX Trading Services to provide a self-trade key for each RT Trader ID.

There are no changes to our order entry and market data feed specifications as a result of these changes.

For additional information, please contact [TSX Trading Services](#) at 416-947-4357.
