TMX Datalinx Product Announcement

Two New Indices on TSX Real-Time Index (TX1) Feed

Further to Product Announcement [2019-001](#), the two indices, MCAN and TXSC, will be released on November 18, 2019.

S&P/MX International Cannabis Index (symbol MCAN)

The S&P/MX International Cannabis Index measures the performance of companies trading on the Toronto Stock Exchange (TSX), TSX Venture Exchange (TSX-V), New York Stock Exchange (NYSE) or NASDAQ that are significantly involved in the cannabis market.

S&P/TSX Small Cap Select Index (symbol TXSC)

The S&P/TSX SmallCap Select Index seeks to measure constituents of the S&P/TSX SmallCap Index that have a demonstrated track record of generating positive earnings. Key Benefits relative to traditional small-cap indices are improved long-term total returns, lower risk, lower tracking error and enhanced liquidity.

Index methodologies will be available on <https://web.tmxmoney.com/indices.php> beginning November 18.

S&P/TSX Cannabis Index (XCAN) will launch at a later date and will be the subject of a notice to be sent at a later date.

Please note that beginning of day and end of day index data, including constituent information, is available via FTP. For more information, please contact TMX Datalinx at 416-947-4778.
