

TMX Markets Notice

COVID-19 Update for March 23 Regarding Ontario and Quebec

The provinces of Ontario and Quebec today announced the mandatory closure of all "non-essential" businesses, effective 11:59 p.m. on Tuesday, March 24. TMX has been in continuous communication with governments and regulators in both provinces throughout this crisis. TMX services are considered essential services in support of the Finance Sector's critical infrastructure and as a result, our business operations will remain fully operational and our offices open in those provinces. All components of critical TMX infrastructure, including our marketplaces and our post-trade services, will continue to operate on a regular schedule.
