

TMX Operational Notice

Additional Extension for Warrants on Four Letter Root Symbols

At the request of our Issuer Services team, we will be adding a third extension in order to list an additional series of warrants for four letter root symbols on a go-forward basis. The classification will be identified as **".WR"**.

To help validate downstream systems, we have added the following test security into our Gateway Testing Environment (GTE) effective **Tuesday April 7, 2020**:

ABCD.WR

Test Third Warrants R

CUSIP - 123456789
