Issue Affecting CDF-CSE at MCC

Attention TMX Information Processor Clients

We have been advised that there has been a refresh event on the CDF-CSE at MCC. Due to this event, the sequence numbers between MCC and TCF will be out of sync.

We advise that arbitration between the sites for CDF-CSE for the remainder of the day is not recommended. As TCF is not impacted we recommend consuming TCF data as your primary source.

For more information contact TMX Market Operations at (416) 947-4705
