PRODUCTION ALERT - Issue Affecting all Nasdaq CXC data in TMX IP Feeds via MCC Site - RESTORED

Attention TMX Information Processor Clients

The issue impacting TMX IP feeds (CDF-CXC, CDF-CX2, CBBO, CLS and CDB) at Markham location (MCC) only on Friday has been restored.

Clients are advised that they may resume consumption of ALL TMX IP Feeds from both Markham (MCC) and Toronto (TCF) sites.

At this time TMX IP believes that a network carrier issue between Nasdaq and TMX IP caused unrecoverable message gaps. The root cause of the network issue is unknown.

We apologize for the inconvenience.
