

TMX Information Processor

PRODUCTION ALERT - Issue Affecting Omega and Lynx data in TMX IP Feeds - Update #1

Attention TMX Information Processor Clients

Please be aware that TMX IP is currently experiencing an issue impacting Omega and Lynx data in the TMX IP feeds. TMX IP has restored Omega data at **Markham (MCC)** site only. Lynx data is still unavailable at Markham and has been removed from consolidated feeds.

Both Omega and Lynx data are unavailable at **Toronto (TCF)** and will remain unavailable for the remainder of the day. This impacts CDF and consolidated feeds.

TMX is currently investigating the root cause of the issue with Omega support and will provide updates once they become available.

We apologize for any inconvenience this may cause.

For more information contact [TMX Market Operations](#) at (416) 947-4705
