

TMX Information Processor

Scheduled Maintenance Work at Both MCC and TCF

Please be advised the TMX Information Processor will be conducting maintenance work in the production environment at both the **Markham (MCC)** and **Toronto (TCF)** data centres.

Maintenance at the MCC and TCF sites will take place from **Saturday October 10, 2020, 00:00 to Sunday October 11 2020, 23:30 ET.**

The work may require the restarting of various feed publishers which may result in the re-transmission of messages. Please disregard any messages received during the maintenance period.

For more information contact TMX Market Operations at (416) 947-4705.
