

TMX Information Processor

Scheduled Maintenance Work at MCC and TCF

Please be advised the TMX Information Processor will be conducting maintenance work in the production environment at the **Markham (MCC)** and **Toronto (TCF)** data centres.

Maintenance at the MCC and TCF sites will take place tonight, **Wednesday December 2nd, 2020** from 17:30 to 23:30 ET.

The work may require the restarting of various feed publishers which may result in the re-transmission of messages. Please disregard any messages received during the maintenance period.

For more information contact [TMX Market Operations](#) at (416) 947-4705
