10 Gigabit network connectivity option for Toronto Stock Exchange, TSX Venture Exchange and TMX Select

As part of TMX Group's continuing effort to provide our customers with world class trading technology and performance, TMX is pleased to announce the availability of 10 Gigabit (Gb) network option for order entry, recovery and market data feed connectivity on the Toronto Stock Exchange, TSX Venture Exchange and TMX Select. The 10Gb network option will be available for customers connecting either through the TMX Primary Demarcation, TMX Disaster Recovery Demarcation or TMX Co-Location facilities.

The new 10Gb network connectivity option will provide customers additional choice to meet their bandwidth requirements. Customers whose bandwidth requirements are being met by the current 1Gb connectivity option will continue to have access to this service. 10Gb connectivity is an optional service available to all customers who wish to access this voluntary network.

Customers that are interested in the 10Gb connectivity option are requested to send an email to vendor_services@tmx.com.

The 10Gb network option will be available in the production environment on **December 1, 2012**.

Please note that the optional 10 Gb network will be subject to a fee. The fee schedule is subject to regulatory approval and will be communicated by September 30, 2012.

Please contact your TMX Account Manager with any questions.
