TSX VENTURE EXCHANGE INC.

NOTICE OF APPROVAL

AMENDMENTS TO TSX VENTURE EXCHANGE RULE BOOK AND POLICIES

Introduction

TSX Venture Exchange Inc. (“TSXV”) has adopted, and the Alberta Securities Commission and British Columbia Securities Commission (“BCSC”) have approved, amendments (the “Amendments”) to the TSXV rule book and policies (the “Rules”). The Amendments are public interest amendments to the Rules. The Amendments were published for public comment on the BCSC website in a request for comments on May 21, 2015 (“Request for Comments”).

Reasons for the Amendments

The Amendments are being made to reflect the following changes:

- The “Long Life order” will be introduced, providing priority benefits to those willing to commit their order to a minimum resting time; and

- Specialty price crosses (currently available on TSX) will be made available on TSXV.

The objective of the new Long Life order type is to enhance the quality of execution for natural investors and their dealers – both retail and institutional – by rewarding those willing to commit liquidity to the book for a minimum period of time.

By choosing to use the Long Life order type, natural investors, their dealers and other non-latency sensitive participants will be able to more effectively and confidently participate in the markets, and better achieve priority in the book without having to compete on speed.

The implementation of specialty price crosses on TSXV is part of the continued efforts to streamline functionality across TMX’s equities markets and to provide added flexibility to users of these cross types when transacting on TSXV.
